Objective

Desired Position	Sr Full-stack web developer/Sr Backend web developer
------------------	--

Summary of qualification

I've been developing websites since 2010 and currently I'm senior web developer for an educational academy working remotely. I am looking to using my experience in PHP, Codeigniter/Yii/Laravel Development to gain additional side gigs. I am primarily backend developer but also have several years of experience working on the front-end. Additionally, I am pretty versed in other parts of the web such as marketing and SEO to name a few things. Lately have been focusing more on machine learning and other technologies that might be of interest.
